EXPERIENCE

Deloitte Data Analytics — Forage

Jan - Jun 2025

- Completed practical tasks in **Data Analysis** and **Forensic Technology** as part of Deloitte's job simulation program.
- Gained hands-on experience in handling large datasets, identifying trends, and generating **business insights** through interactive reporting.
- Applied analytical thinking to simulate real-world consulting scenarios and communicate findings effectively.

PROJECTS

Cameo - Real-time Video Calling Web App: ([Source Code](#))

- Built a full-stack real-time video calling platform using **Next.js**, **TypeScript**, and **WebRTC**.
- Implemented secure authentication using **Clerk**, integrated modern UI via **ShadCN UI**, and structured code into reusable modules for scalability.

FoodoraX - Food Delivery App Prototype: ([Source Code](#))

- Developed a modern and responsive food delivery web application using **React.js**, **Node.js**, and **Tailwind CSS**.
- Designed a seamless user experience with dynamic UI components and backend integration for real-time order simulation.

TECHNICAL SKILLS

Languages:	C++, TypeScript, JavaScript, Node.js, Go
Web:	HTML, CSS, React, REST, GraphQL, WebSockets, WebRTC
Backend:	Node.js, Express.js, Flask, Laravel, Puppeteer, PostgreSQL, MongoDB
Cloud:	GCP, AWS (S3, EC2, Lambda), Docker, Kubernetes

ACHIEVEMENTS

- Solved **200+** problems on LeetCode ([Strypher](#)).

EDUCATION

MCA , Techno College Hooghly
CGPA: 6.8

Oct 2024 - Jul 2026
